

Italy - IT Services

Once again a robust interim top line progression

4th August 2023

H1-23 REVENUES RELEASE

RIC: DGV.MI BBG: DGV IM For the ninth consecutive semester, DGV registered a double-digit growth in revenues, thanks to the strong contribution of its core business, i.e. Next Generation Data Center, prompted by the acceleration of digitalisation projects related to the Recovery Fund, driven primarily by the Public Administration.

Top line up 23.6% YoY and well on track to reach our FY estimates

Digital Value H1-23 preliminary turnover increased by 23.6% YoY to € 416.9m, representing the ninth consecutive semester featuring double-digit growth (CAGR₁₉₋₂₃ of +21.8%, including TT Tecnosistemi). The group further consolidated its leading position in light of its unparalleled ability to intercept investment opportunities in key reference markets. It also benefitted from a strong acceleration of NRRP-funded projects, especially with respect to the Public Administration. Digital Value is well on track to reach our FY-23 top line estimate, given that H1-23 accounted for 51% of the total. Additionally, the company is well positioned to continue outpacing the Italian ICT market over the next few years, by taking advantage of 1) a still underpenetrated market compared to European peers, in which DGV focuses on the highest growth segments, 2) the accelerated implementation of the NRRP in Italy and, 3) its strong balance sheet which grants it access to several M&A opportunities with the aim of enhancing know-how and adding complementary services. Estimates, valuation and price target confirmed. DGV will unveil full interim results on 21-Sept.

Top line driven by Next Generation Data Center, which soared 53.3% YoY

In terms of line of business, Next Generation Data Center, DGV's core business, rose by 55.6% YoY to € 222.1m, accounting for more than half of revenues (53.3%). The business line, which represents most of DGV's recurring revenues, benefitted from strong demand for digital infrastructures to enable customers to digitalise their activities. Notably, DGV provides its clients with physical and virtual Data Center Infrastructures, also delivered in IAAS (Infrastructure as-a-Service) mode, where the group has invested a considerable amount of resources over the last year. Digital Business Transformation reported € 115.2m, up 2.3% YoY, primarily driven by Secure Integration and Cybersecurity services, along with Cloud and Software platforms delivered as-a-service. The business unit accounted for 27.6% of revenues, compared to 33.3% in H1-22. Smart Workplace Transformation totalled € 79.6m, largely stable YoY, making up 19.1% of top line, compared to 24.4% in H1-22.

Large Public Administration accounted for 43.7% of revenues

With regard to the main reference markets, Large Public Administration's contribution to top line was 43.7% (vs 23.1% in H1-22), driven by a strong acceleration of NRRP-funded projects, whereas Local Public Administration accounted for 9.8% (vs 10.4% in H1-22). Telco & Media made up 16% of revenues (vs c. 34% in H1-22), mainly as a consequence of a contingent market situation affecting a major customer; Industry & Finance accounted for 30.5% (vs 32.2% in H1-22), following the postponement of few projects to H2-23, although featuring an improved backlog comprising medium-long term contracts with top-tier financial institutions. Moreover, on 1 August DGV was awarded 7 out of 13 lots in a tender called by Consip with a 12-month term worth € 220m, of which € 168.9m attributable to the group, thus considerably increasing contract portfolio and top line visibility for FY-24.

CFO SIM Equity Research COMPANY FLASH

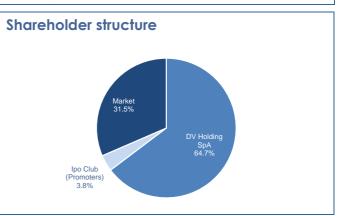

The company at a glance

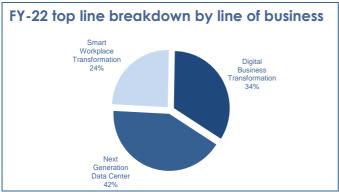

Digital Value originates from the combination of two domestic IT system integrators, Italware and ITD Solutions, with more than 30 years of experience in the field. The group supports the digital transformation of its customers through customised solutions and services. Headquartered in Milan, DGV (Digital Value) focuses on large accounts, i.e. companies with more than 500 employees, and the most promising segment in the IT services arena in terms of growth.

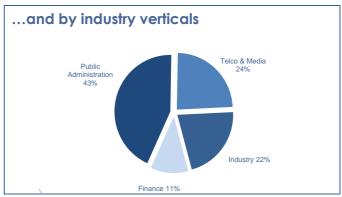

The group boasts key expertise in network infrastructure and data centres, security, network testing and monitoring, workstation management, Help Desk, data management and analysis, ERP systems management, retail applications, information systems, on-premise support and governance, outsourcing and cloud.

With over 400 employees, DGV reported 2022 Total Revenues of \in 708.5m, EBITDA of \in 73.6m (10.4% margin), \in 33.9m Net Profit and a Net Financial Position of \in 16.4m (cash positive). With ROE of 22% and ROCE of 20%, DGV has a well-balanced and lucratively allocated capital structure. Currently, 100% of the business is generated in Italy.

ANALYST CERTIFICATION

This publication was prepared by Corporate Family Office SIM S.p.A. ("CFO SIM"), namely by **LUCA ARENA**, Head of the Equity Research Department, **GIANLUCA MOZZALI and LUCA SOLARI**, Equity Analysts. This is to certify that the views expressed on the companies mentioned in this document reflect the analysts' personal opinions and no direct or indirect remuneration has been, or will be, received by the analysts further to the views expressed herein.

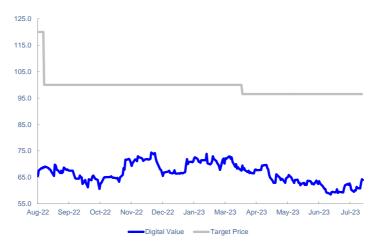

DISCLAIMER

This document has been drafted by CFO SIM, authorised by the Bank of Italy to provide investment services.

CFO SIM does not have a specific interest in either the issuer, the financial instruments or the transactions covered by the analysis.

The news and data used in this document come from information supplied to the public by the company concerned and/or from other documentation of public domain. CFO SIM is not liable for the accuracy, completeness, exactitude and impartiality of such news and data. This document has been drafted autonomously and independently and without the collaboration of the company analysed or of any company linked to the latter by shareholdings or control. This document has been prepared by the financial analysts of the Equity Research Department of CFO SIM, whose names are indicated therein. Luca Arena and Gianluca Mozzali are ordinary members of the Italian Association of Financial Analysts (AIAF). In no case can the company and the analysts, as authors of this document be held liable (culpably or otherwise) for damage stemming from use of the information or opinions set out therein. The purpose of this document is solely informative. The document cannot be reproduced directly or indirectly and redistributed to third parties, nor can it be published, either totally or in part, for any reason whatsoever. This document is not an invitation to purchase, nor is it intended to solicit the purchase or sale of the securities in question. The recipients of this document are formally bound to observe the constraints indicated above.

CFO SIM wishes to provide ongoing coverage of the stocks mentioned in this document, with a frequency depending on circumstances considered to be important (corporate events and changes of recommendation, etc.). CFO SIM acts as a Corporate Broker for Digital Value stock, listed on Euronext Milan. The next table shows the ratings issued on the stock in the last 12 months.

DATE	TARGET PRICE	RATING
04/08/2023	€96.50	BUY
22/03/2023	€96.50	BUY
02/02/2023	€100.00	BUY
13/09/2022	€100.00	BUY
04/08/2022	€120.00	BUY

This document is distributed via electronic mail and fax as from the date indicated in the document itself and addressed to some 300 Italian and non-Italian professional investors. The document is available in electronic format at CFO SIM's Internet site, to Italian and non-Italian institutional investors, and/or in Borsa Italiana's Internet site.

RATING SYSTEM

a **BUY** rating is assigned if the target price is at least 15% higher than the market price;

a **SELL** rating is assigned if the target price is at least 15% lower than the market price;

a **NEUTRAL** rating is assigned if the difference between the current price and target price lies within the +/ -15% bands identified using the preceding criteria.

The rating is determined on the basis of the **expected absolute return 12 months forward** and not on the basis of the estimated out/underperformance relative to a market index. Thus, the rating can be directly linked with the estimated percentage difference between current price and target price. The prices of the financial securities mentioned in the report (also used for the calculation of market capitalisation and market multiples) are the reference prices of the stock market trading day preceding the publication date of the report, otherwise stated.
